
This poster illustrates the genealogy of 582 firms and organizations in the Kansas City metropolitan region. Data was gathered through an online survey of technology firms and through secondary research in 2012. The research is part of an ongoing research project at the University of Bern (Switzerland), which examines regional economies through a focus on entrepreneurial heritage. For additional information about the project, please visit: www.heikemayer.com

This is Version 1.0, and please send suggested updates to mayer@ilub.unibe.ch.

The research was supported by the Ewing Marion Kauffman Foundation
